12th July 2006

To whom it may concern.

During July 2005 I took the decision to add a 7.5 x 3.5 metre pond to my rear garden. Due to the size of the pond (approx 20400 litres) I decided to employ a local landscape company rather than attempt this myself. I chose Thrive Landscapes initially due to their speedy response to my request for an estimate. Having then met and discussed my requirements with Steve, it was clear from the outset that Thrive Landscapes were happy to carry out as much or a little of the required work as I needed. The result was that Thrive carried out all of the groundwork, hard landscaping and liner installation leaving me with the jobs I enjoy such as the planting and filter installation. All of the work was carried out in a most efficient and speedy fashion and completed in four days.

I now have a wonderful natural pond feature which enhances the appearance of the garden and has already attracted new wildlife, such as newts, frogs and yes the heron.

I can confidently recommend Thrive Landscapes as a solid and reliable supplier, and experts in their field.

Yours faithfully,

Kevin Cole
