Dear Steve,

Now that the work on our garden has been completed, I write to thank you for all your hard work and efforts.

Considering the fact that the area outside the back door was previously dark and dingy and fairly unusable, the space is now completely transformed and we are delighted with the results. We were also particularly impressed by your professionalism and dedication to complete the job to a high standard.

If we require any further work carrying out in future, we will not hesitate to contact you.

Yours sincerely,

Cathy Perkins
